

Client Onboarding and Lifecycle Management

Next-level Client Onboarding and Lifecycle Management

Client Onboarding and Lifecycle Management are major challenges for Banks and Financial Institutions.

Embus is a comprehensive and cost-effective solution to enhance the Client Onboarding and Lifecycle Management experience for you and your client, providing transparency and accountability throughout the whole process.

The functionality within Embus allows you to manage your relationships from prospect to fully onboarded client more effectively than ever before.

Embus reduces the time for you to onboard a client and allows them to be continually advised of where they are in the onboarding process through the use of more efficient and transparent procedures

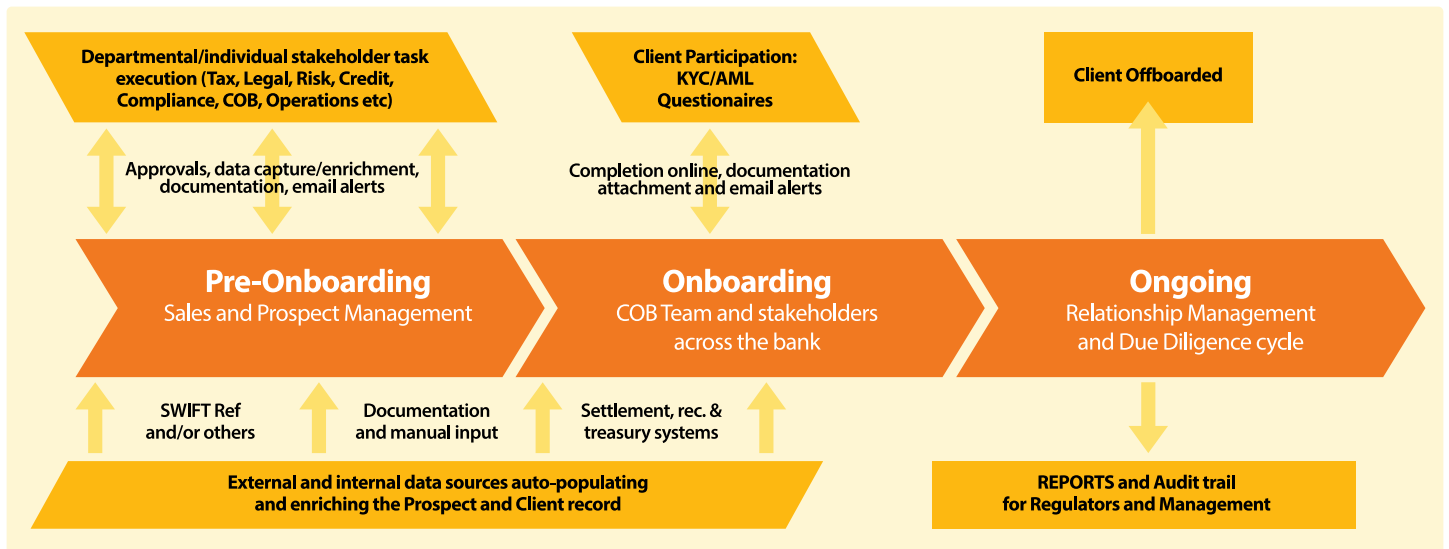

Using online alerts Embus enables regular client reviews and ongoing due diligence. All questionnaires, responses and analysis can be stored within the system and reported on as required

Embus provides a streamlined process with a focus on tracking, monitoring and ensuring regulatory compliance throughout the lifetime of the client, responding to new regulations, or data received as part of a scheduled or ad-hoc compliance review

How will Embus help you?
