Live Therapeutics for Better Life

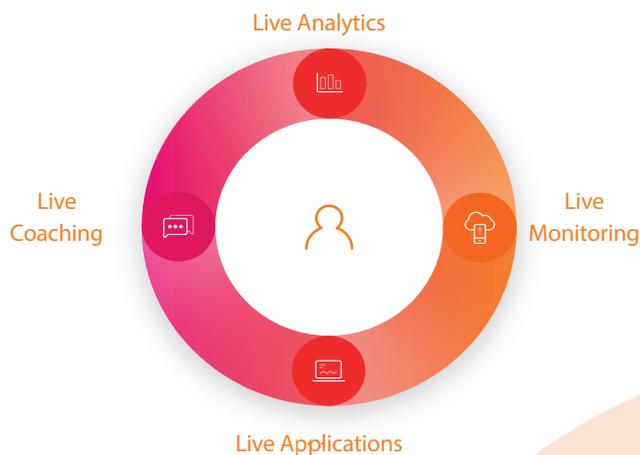

Inspire your Employees to Improve their Health

With 40,000 active users worldwide and proven clinical study outcomes, Dario is a global digital therapeutics solution leader revolutionizing the way people manage chronic conditions.

DarioHealth provides companies with a comprehensive chronic condition management solution that gently instructs, encourages, and inspires employees to self-manage and take control of their chronic conditions.

Built for and around the participant, Dario has created individualized solutions that combine best practices in digital technologies, analytics, hardware, and human interaction, yielding industry-leading satisfaction and engagement rates.

Formulating Digital Therapies, One Person at a Time

DarioHealth's cross-functional team operates at the intersection of life sciences, behavioral science and software technology to deliver seamlessly integrated and highly engaging digital therapeutics interventions. DarioHealth is one of the highest-rated diabetes solutions and its user-centric approach is loved by tens of thousands of customers around the globe.

Empower Employees to Make Healthier Choices, Their Way

Dario's solution consists of a state-of-the-art glucose monitoring system, a blood pressure monitor, an acclaimed mobile application and professional diabetes coaching - all integrated to form an intuitive, self-managed and user-centric ecosystem.

Mobile App

Personalized experience for each user
Colorful reports provided in real time that help users visualize their progress

Helping Both Employers and Employees Achieve their Goals

Dario utilizes a proven process to identify and enroll participants, so their continued interactions ultimately result in better outcomes for everyone.

What's not to love about Dario?

Employers

- Cost effective: All-inclusive Per Engaged Member Per Month (PEMPM) pricing means you only pay for those who are actively involved.
- Easy: Your Dario team leads every step of the process to deliver ongoing engagement and most importantly, healthier employees.
- Flexible: The DarioEngage™ coaching platform may be used by either Dario clinical resources or your own health coaching staff.
- Open: Dario can integrate with both external systems and health coaching partners.

Employees

- Using Dario is simple, personalized, and secure with an engaging user experience.
- Employees see progress towards the goals they have set directly in the Dario app
- Employees may alert a family member or friend from the app.
- Dario is a trusted advocate who rigorously adheres to privacy standards.
- Employees are encouraged to participate via messages and rewards (available option).
