

MACHINE LEARNING MATCHING™

Dramatically reduces your team's workload by matching

70% - 90% of transactions which rules leave unmatched.

Between 2 and 8% of financial transactions suffer from data quality issues and can't be reliably matched using rules, leaving your recs team to manually match thousands or even millions of transactions. Operartis is a company specializing in artificial intelligence based automation. Using our team's extensive experience with back-office operations, combined with our development of specialized machine learning algorithms, we have created a break-through technology which dramatically improves match rates and reduces mismatches, freeing up your team for higher value work.

ZERO user learning curve

LOW IT involvement

NO user configuration work

SECURES your data

CLEANS UP outstanding items

GUARANTEED ROI
Evolve your process today

MLM™ works like an additional team member, matching transactions which the rules engines leaves unmatched. The only change your team will need to adapt to is the small number of transactions in their manual match queue!

MLM™ is an additional matching module which runs after your rules engine, fitting seamlessly into existing workflows. **No new interfaces or data migrations are needed.** **MLM™** can use spreadsheet extracts downloaded by users from your rules engine GUI.

Operartis sets up the **MLM™** module - no additional IT or user setup is required. **MLM™** automatically learns from your past operational data, giving you rapid results and immediate ROI. System is highly performant and scalable to millions of matches per day.

MLM™ can work with encrypted data to ensure adherence to security requirements.

As well as ongoing transactions **MLM™** can process historic outstanding transactions and identify user mismatches in historic matches helping you get your recs ship-shape.

Based on your data we will provide an automation report detailing the achievable reduction of manual matches and mismatches. If you choose to proceed with **MLM™**, going forward you will pay only for the manual matches **MLM™** saves, guaranteeing your immediate ROI.

Why spend time and money on unnecessary work? **Email us at info@operartis.com to set up a risk-free consultation.** Let's assess how much **MLM™** can save you and your team.

What's your automation IQ?™

See how our **state of the art machine learning matching booster** can save your reconciliations team time and money.
