

# About AxiomSL

When Technology Means Transparency

AxiomSL is a proven leader in setting the standard for delivering integrated regulatory and risk management solutions for the financial services industry. Established more than 20 years ago, with offices worldwide, AxiomSL empowers financial firms to meet regulatory reporting and risk requirements across multiple regulators and jurisdictions on **One Strategic Platform**.

Delivering Today's Regulatory Solutions with Tomorrow's Foundation on One Platform

## Challenges

Today's challenges with regulatory requirements are not only about the ability to meet current compliance standards but also ensuring your firm can quickly adapt to ongoing changes while effectively controlling costs.

AxiomSL's unique strategic data-driven platform meets existing and evolving regulations anywhere in the world while delivering a strong foundation to address tomorrow's regulatory and risk requirements.

## Trends

Global regulatory agencies are continually striving for increased transparency, data integrity and a new level of granularity in what is reported. AxiomSL's strategic platform enables seamless integration of multiple systems and data models without forcing any data conversion into common formats.

AxiomSL's solutions aggregate, enrich and consolidate data across the full range of reports and provide the

flexibility to leverage these granular datasets for various regulatory and internal reporting requirements.

## Benefits

AxiomSL's strategic platform meets the challenges of new operating models, including the automation of reporting, business logic, data integration and enrichment, auditability, scalability and accountability in addressing multiple deadlines around the world.

AxiomSL's fully integrated reporting and risk solutions provide complete control over every step of the regulatory reporting process, from data sourcing (mapping, analysis, consolidation and reconciliation) to workflow management (streamline review and approval process), to reporting templates with edit checks and results validation, to electronic submission including XBRL on **One Strategic Platform**.

**Winner**  
Customer Satisfaction Award in  
RiskTech100® 2014 Rankings

**Achievement Award**  
**Risk Analytics Management Award**  
from The Asian Banker®
