

Caregiver Support System For Families Of Children With Special Needs.

Did you know that 1 in 6 children have a developmental disability, and employees who are caregivers of children with special needs are 2.4 times more likely to experience poor mental and physical health?

Rethink Benefits is the first and only global solution offering 24/7 virtual caregiver teleconsultations with expert behavioral clinicians, and online evidenced-based training and support for families who have children of all ages with learning, social, or behavioral challenges, or developmental disabilities (including Autism, ADD, etc.)

Rethink Benefits fills medical plan gaps and helps create a culture of wellness that ultimately provides improved employee productivity (reduced stress, greater focus, less absenteeism) and greater employee loyalty, and increased morale.

Discover why leading Fortune 100 companies choose Rethink Benefits to help remain employers of choice.

BENEFITS

Inspiring Hope And Powering Potential.

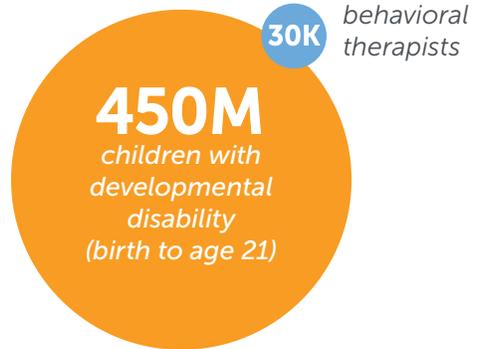

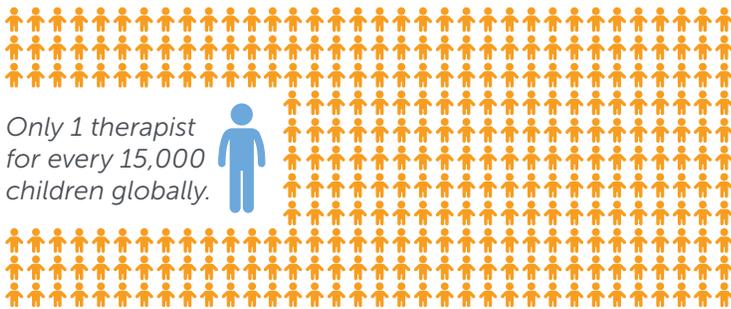

There is a huge population in need with a severe gap in coverage due to a global shortage of providers to help caregivers of children with special needs.

Global increase in developmental disabilities

1 in 6 children have a developmental disability.

Severe global shortage of therapists

Parents feel the pressure

Parents are 2.4X more likely to report poor physical and mental health conditions related to the stress of caring for a child with special needs.

2X the medical costs for child and 2X the mental health cost for the caregiver.

Rethink's global solution is able to close the gap where the health plans fall short with 24/7 access to clinical supports and a scalable technology solution right in the home of caregivers and their support team.
