DELIVER CONNECTIVITY FASTER.
ACROSS TRADING SERVICES AND ASSET CLASSES.
AUDITED AND IN COMPLIANCE.

At a time of increasing market regulation and compliance requirements, Esprow ETP C-Box delivers
an unparalleled technology to streamline the process of certifying connectivity of exchange members
and FIX counterparties.

Esprow ETP C-Box is engineered to deliver concurrent certification of multiple connecting counterparties
across multiple protocols, asset classes and exchange/broker platforms. Automate. Audit. Improve.

## IMPROVE CLIENT RELATIONSHIPS.

> Provide your clients with an improved certification
experience and a customized on-boarding process.

> Let clients self-certify, 24/7, from anywhere, on their
own terms and according to their schedule.

## EARN REVENUES FASTER.

> On-board clients faster to start earning trading fees
sooner. Don't let your business be slowed down.

> Leverage your existing on-boarding team to certify
mulitple clients concurrently.

## STAY COMPLIANT.

> Esprow ETP C-Box delivers fast and audited on-boarding, streamlining the certification process through a simple web portal.

> Maintain a detailed audit of the entire on-boarding process for as long as required by your compliance policies, including counterparties' own log files.

> Centralize all certification data into one system, including test scripts, emails, log files and sign-off documents.

## STAY AHEAD.

> Esprow ETP C-Box is built upon Esprow ETP's unique multi-protocol technology to deliver automated certification across many protocols, including:

- FIX (4.0, 4.2, 4.3, 4.4, 5.0, 5.0SP1, 5.0SP2)
- ITCH/OUCH - SoupBinTCP/MoldUDP
- NASDAQ® Genium INET® (OMnet)
- NYSE Euronext® UTP Direct®
- SWIFT® MT/MX, ISO20002, ISO15022
- IBM® WebSphere® MQ

and many other exchange technologies.
