Triton[®] Black

A smooth, deep dive into active trading

You can't manage a portfolio of single stocks using insufficient data on a slow platform. You need fast, easy access to market data at a granular level to make split-second decisions based on fact, not guesswork. You also need a platform that gives you broker-neutral access to traders everywhere, whether you're trading equities or options.

Triton[®] Black, ITG's next-generation multi-asset platform, features the latest technology for an interface that's full-featured, fast, and easy to use. Whether you're transitioning from Radical[®] or another platform, you'll experience a smoother workflow and an intuitive, customizable trading interface that gives you access to ITG's most powerful tools and algorithms.

INDISPENSIBLE TO YOUR TRADING

Deeper data access. Research each stock from a birds-eye or granular perspective. All the data you need is right at your fingertips.

Customization. Configure your workflow to match the way you think and work most efficiently.

Unlimited connectivity. Trade freely with ITG and third-party destinations worldwide, regardless of their platform.

Speed. Get instantaneous snapshots of market volume, volatility, and pricing and adjust your strategy as you trade.

Multi-asset trading. Trade equities, Swaps/CFDs, futures, options, pairs and spot-fx across exchanges from all major ECNs and MTFs.

ACTIVELY TRADE SINGLE STOCKS

View available global liquidity across exchanges, and access the full depth of books from ECNs and MTFs. Set "hot" buttons and use dynamic charts to monitor real-time trade progress.

MAKE YOUR WORKFLOW WORK FOR YOU

The streamlined, modular, and completely customizable interface makes it easy for you to research, evaluate, and execute trades. Simply move the components around to fit the way you work, change the size, color, and relative position of objects, hot buttons, and even the order bar. Monitor performance across multiple benchmarks, see or take over other traders' orders, and more.

And, because Triton[®] Black is broker neutral, you have complete freedom to use ITG's tools—including capabilities that can help you access quality liquidity and trade efficiently.

TAKE ADVANTAGE OF ITG LIQUIDITY

Take advantage of POSIT Alert[®] for indications-based crossing, ITG Algorithms[®] and the aggregated dark liquidity of POSIT Marketplace[®]. Using ITG Algorithms, get transparent execution and liquidity filtering to protect you against adverse selection as you trade.

INDUSTRY RECOGNITION AND LEADERSHIP POSITION

Since 2003, Triton has set the industry standard in execution management:

2014 Best Equities Trading Platform—Broker Wall Street Letter

2013/2011 Best Execution Management System—Asian Investor Service Provider Awards
