

Intrali is a software solution for bordereaux processing and management. It standardises large amounts of bordereaux data, quickly importing and converting multiple data formats to a single template determined by you. As well as cleansing the data, the system checks and validates it against the binder terms. Enhanced reporting makes processes transparent, rendering risks visible and boosting efficiency and profitability. Advanced software features expand on collated data, adding value and making data more informative. All this is underpinned by an intuitive user interface that makes **Intrali** quick and simple to use.

FEATURES:

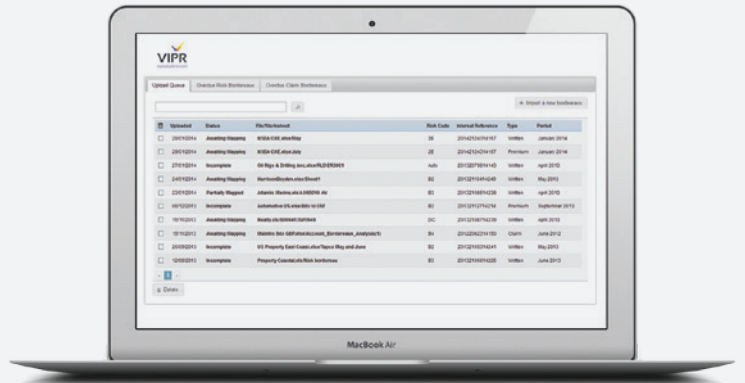

- Cleanses, validates and standardises data in a single action
- Highlights errors and breaches
- Has ability to produce AIR or RMS output
- Facilitates direct reporting to Lloyd's
- Monitors bordereaux submissions
- Produces warnings / alerts and reminders
- Aids transparency: generates intuitive reports / analysis
- Simplifies auditing and business tracking processes
- Produces output that can be used for sanctions and embargo checks

BENEFITS:

- ✓ Integrates with existing systems
- ✓ Fully supports Lloyd's and ACORD standards
- ✓ Removes processing costs through directing reporting
- ✓ Works with all bordereaux types – written, premium, claims
- ✓ Flexible – it can be tailored to your requirements
- ✓ Quick implementation
