

# Cincom Eloquence<sup>®</sup>

## LIFE INSURANCE SOLUTIONS

Cincom Eloquence is the most intuitive customer communications solution in the industry, providing your business with the power to generate dynamic documents—both structured and free-form—that are more accurate, timely and persuasive.

### Easy to Use!

Cincom Eloquence's intuitive interface (co-designed with Human Factors International) enables users to easily design document templates containing conditional logic, guided workflows and integrated real-time data. Templates can be imported from other sources or created and tested directly within a familiar Microsoft<sup>®</sup> Word-embedded environment before being stored in a central repository. Generation of communications can be deferred to larger runs or produced individually in real time and delivered via print (PostScript, PDF, AFP, PCL, HTML and Word) or electronic channels (email, fax, Web and mobile).

### Easy to Integrate!

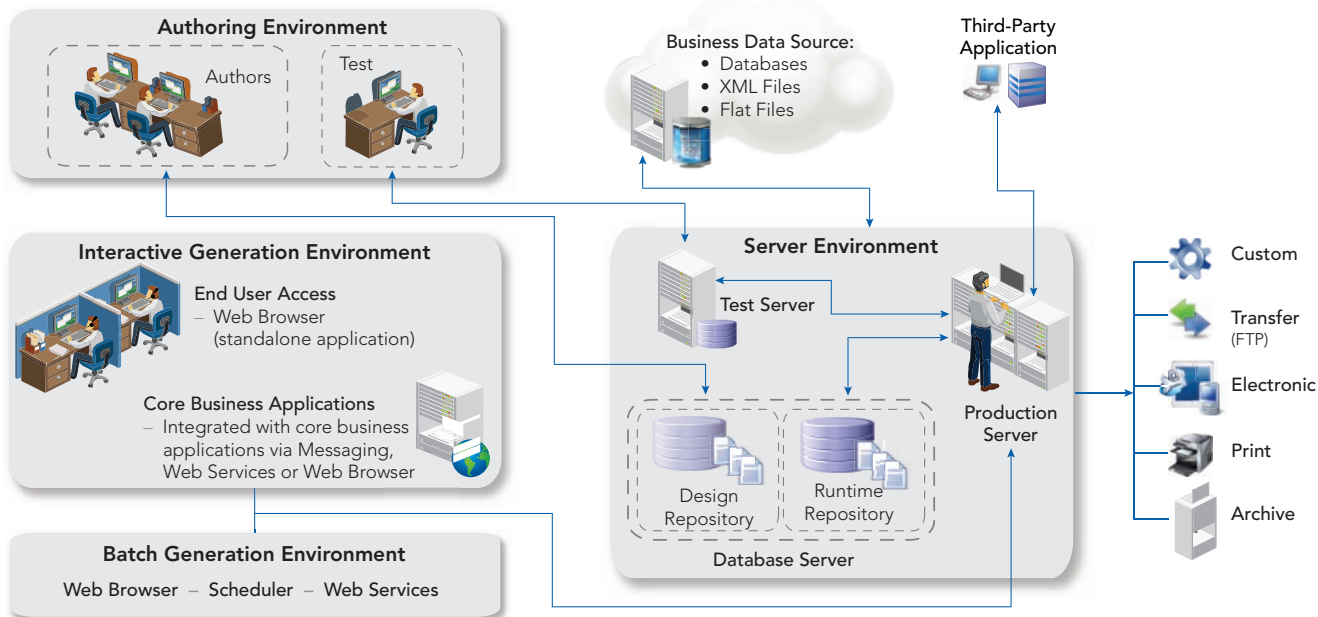

IT professionals will value Cincom Eloquence's single platform for high-volume batch production and real-time interactive generation. Leveraging ubiquitous technologies like XML, J2EE, JBoss, Tomcat and IBM's WebSphere, Cincom Eloquence optimizes legacy investments by effortlessly integrating with core business applications, databases and information technology infrastructures—from mainframe to emerging services-oriented architectures (SOAs).

Cincom Eloquence has been integrated with many leading applications including:

- StoneRiver ID3
- EXL LifePro
- Sapiens ALIS
- IBM FileNet
- Hyland OnBase

Cost savings  
of up to

80%

### Authoring Environment

- Microsoft Windows®
- Microsoft Word
- Microsoft .NET Framework
- Java JDK
- Adobe Acrobat Reader

### Interactive Generation Environment

- Internet Explorer, Chrome and Firefox
- Microsoft Word (if editing generated documents)
- Viewer required for the output being generated (PDF, AFP, PCL, Word, HTML and PostScript)

### Server Environment

- Microsoft Windows Server
- Java JDK
- Microsoft Word (if printing Word output)
- JDBC Driver (for preferred database)

### Database Server

- SQL Server
- Oracle
- DB2
- PostgreSQL

### Choose from one of the following Application Servers

Tomcat Application Server	JBoss Enterprise Application Platform or Wildfly	WebSphere Application Server (Base or Network Deployment)
<ul style="list-style-type: none"> <li>• Apache HTTP Server</li> <li>• Apache ActiveMQ Java Messaging Service</li> </ul>	<ul style="list-style-type: none"> <li>• Apache HTTP Server</li> <li>• Apache ActiveMQ Java Messaging Service</li> </ul>	<ul style="list-style-type: none"> <li>• IBM HTTP Server</li> <li>• Messaging options:               <ul style="list-style-type: none"> <li>– WebSphere MQ</li> <li>– ActiveMQ Java Messaging Service</li> <li>– Web Services using SIB</li> </ul> </li> </ul>

## About Cincom

Cincom delivers the most intuitive, customer communication solutions in the industry. By streamlining the design, deployment, delivery and management of high-volume, highly personalized communications, Cincom has helped insurers around the world:

- Acquire, strengthen and expand member relationships
- Minimize compliance/regulatory risks
- Reduce operating costs
- Accelerate time-to-market for all of their customer communications

Cincom leads the industry in providing customer communication solutions that are easy to integrate, easy to use and deliver a rapid and continuous return on investment.
