

# B2 ChannelTest Generator

## Self-Service Client Testing Simulation

### The Next-Generation Solution for Corporate Client On-Boarding

B2 Group's ChannelTest Generator provides banks and their clients with a low-cost shortcut to on-boarding, enabling end-to-end testing of electronic banking channels.

#### ChannelTest Brings Rapid Benefits. With ChannelTest you can:

- Empower clients to execute their own tests
- Dramatically reduce on-boarding time or time-to-market for new products through:
  - End-to-end testing with simulated bank environment
  - Focused use of key implementation resources on critical tasks by allowing clients to self-test
- Provide the same customer experience for large and small clients alike
- Remove reliance on your internal IT infrastructure through:
  - fully hosted service accessible to banks and clients
  - easy to use browser based screens accessible by all
- Set no limits to usage (users, clients, documents)
- Treat each client as unique, able to test their own specific format for instructions and statements

#### Unparalleled functionality means end-to-end testing, from Payment Instruction to Statement & more ...

ChannelTest Generator, built using B2 Groups's many years of experience on-boarding clients for the world's largest banks, delivers a breadth of functionality that covers all aspects of document generation required by today's international transaction banks.

#### ChannelTest's Unique Array of Features Includes:

- Full Transaction Lifecycle Management, covering:
  - Automated input of instructions
  - Real-time syntax checks
  - Real-time business validation
  - Detailed validation reports
  - Payment Status Reports
  - Automated return of simulated Statements
- Coverage of all industrial formats:
- Bank controls access rights to:
  - empower clients to self-test
  - set client specific validation rules
  - set client specific instruction and statement formats
- Full audit trail of client tests
- Management information to track client testing activity
- Supports ISO20022, MT940 and other industry formats

### B2 Channel Suite

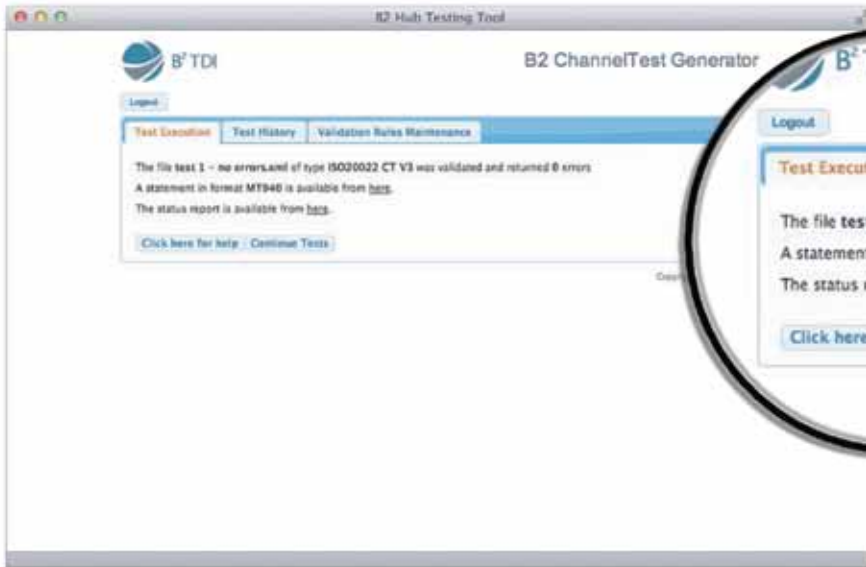

The Low-Cost Electronic Channel Banking Efficiency Solution

## B2 ChannelTest Generator

A Better Customer Experience,  
A More Efficient Bank Experience

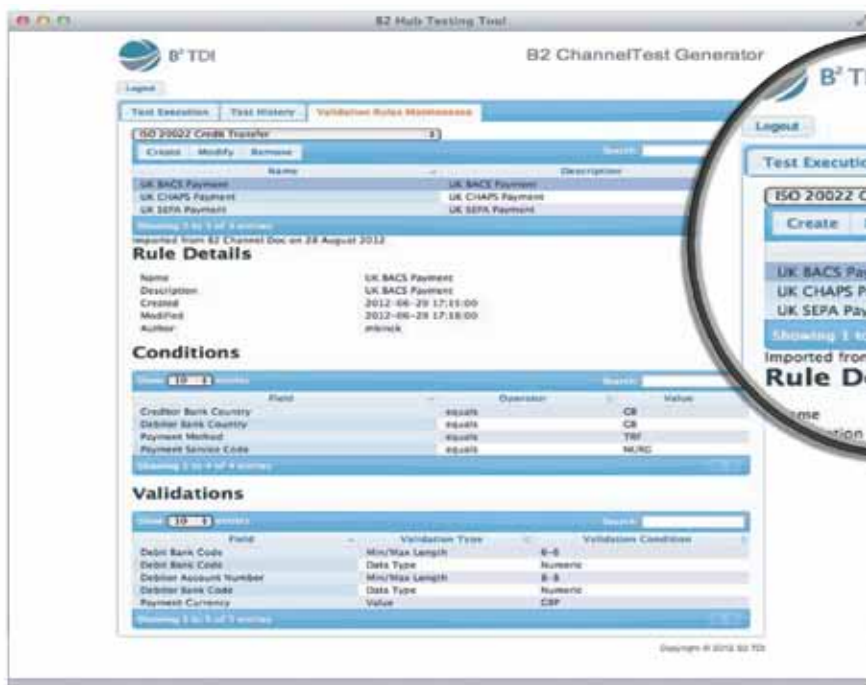

### Real-Time Results

ChannelTest Generator offers clients a quick and easy screen based testing portal, with real time reports in industry standard formats such as ISO20022.

### Flexible Validation Managed by the Bank's Staff

ChannelTest Generator enables the bank to provide simulated testing environments to clients, with bank implementation able to rapidly set up specific validation rules on-line for particular transaction types or clients.
